SUMMARY

I am a full stack web developer with a background in editing, writing, and graphic-novel production. You will find that I am a detail oriented team player with a passion for problem solving and creating buttery smooth, user-friendly applications.

PROJECTS

Movie Trailer MatchUp

This application creates a hub of sorts where the user is able to access a variety of movies associated with their search query and have instant access to the most relevant movie trailer associated with each.

GitHub: <https://github.com/mfrisch87/MovieTrailerMatchUp>

Deployed Application: <https://github.com/mfrisch87/MovieTrailerMatchUp>

Tools Used: JavaScript, CSS, HTML, Bootstrap, Sequelize, Node.js, express,

SunDial

SunDial is a project-management oriented application meant to make life easier for the payroll department. It allows the user to keep a very close account of how much time is spent on any given task throughout the workday.

GitHub: <https://github.com/aparnell0130/SunDial>

Deployed Application: <https://dry-forest-22741.herokuapp.com/>

Tools Used: JavaScript, CSS, HTML, Bootstrap, Node.js, express, handlebars

PROGRAMMING LANGUAGES

- JavaScript
- HTML
- CSS

- Certificate in Full Stack Web Development, University of Washington (2021)
- Certificate in Editing, University of Washington (2018)
- Post-baccalaureate Creative Writing, Western Washington University (2011)
- Bachelor of Arts, emphasis in Literature, Evergreen State College (2006)

WORK EXPERIENCE

Pizza Delivery (2016-2021)

I worked for Zeeks Pizza in Seattle for almost five years before moving on over to Pagliacci Pizza in search of better workplace opportunity. There was no ill-will involved in the change and I still maintain positive relationships with the managers and employees from my old store.

Copyediting & Writing / Private Author (2019-2020)

For Lack of a Better World is a science fiction novel written by an Australian author named Sage Houston. He's a young, talented writer with a good aptitude for story structure and character development. My job, as his editor, has been to smooth out and refine his sentences so that the audience can experience his narrative most fully.

Copyediting & Writing / Private Author (2019)

A Wedding DJ's Diary is a creative non-fiction memoir about a man's life growing up in Seattle, playing in a rock band, and working as a Wedding DJ. Non-fiction is a great challenge because the author is often very close to their writing. Editing this book taught me how to delicately negotiate comments and suggestions in a way that is both effective and non-offensive.

Script Writing / Monster's Toolbox Inc. (2018)

As part of a creative team, I produced eight pages of comic book script for the Bellevue construction company's monthly newsletter. The material had to be humorous, magical, themed appropriately for a wide audience, and relevant to the services that they offered.

Substantive Editing / Private Author (2017)

After reading a sample of my client's novel manuscript I offered a proposal, it was accepted, and we agreed on two editorial passes—first, a substantive edit, where we dealt with any inconsistencies, anachronisms, or plot-holes; and secondly, a **heavy copyedit** focused on making the prose sing. All changes were reviewed and approved by the author and made using Microsoft Word Track Changes. Our style guide was *The Chicago Manual of Style*, 17th ed.

Short-form Content Writing / Content Boulevard (2015)

SEO content generation in the form of 500-word short-form articles on a broad range of topics, using keywords and anchor text in an organic way that is unique and informative to the reader.
